I'm currently pursuing my Master of Computer Applications (MCA), where I am honing my skills in software development and artificial intelligence. With a strong foundation in programming languages like Java and Python, I am passionate about creating innovative solutions that leverage technology to address real-world challenges. Eager to collaborate with motivated professionals and contribute to impactful projects that push the boundaries of technology. Whether through internships, projects, or networking opportunities, the focus is on expanding knowledge and making meaningful contributions in the tech landscape.
